

Top 10 Ways to Mālama Hawai`i

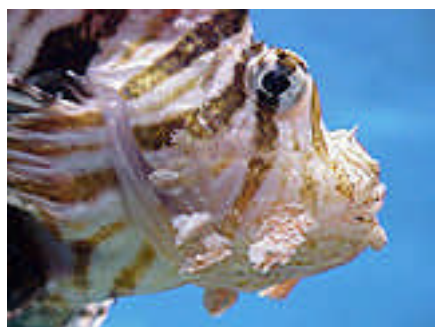

Every day we hear about problems which affect our global environment.

Some problems are noticed very far away from where we are while others are right in our back yards.

Although these problems seem to be the responsibility of the government or an industry, there are ways we can help, too.

If we all worked together, simple changes could make a huge difference.

Here are ten simple ways we can Mālama Hawai`i today, for tomorrow and for the future.

Top 10 Ways to Mālama Hawai`i

- ☑ Don't walk on the coral reef.
- ☑ Bag that trash along our shorelines, on our trails and at home.
- ☑ Properly dispose of toxic substances... don't pour them down the sink and don't allow them to run off into storm drains.
- ☑ Clean your hiking boots thoroughly after you take a hike.
- ☑ Return unwanted pets to pet stores.
- ☑ Do not introduce new, alien species to Hawai`i.
- ☑ Recycle, Recycle, Recycle aluminum, glass and plastics.
- ☑ Drive less. Bus or walk more. It's healthier for the environment and for you.
- ☑ Teach a child that we can all make a difference in the health of our environment.
- ☑ Share this tip list with friends.
